

Welcome

You have just joined a special group of people-our patients. We are a complete dental care team specially trained to offer a wide range of dental services. Your health and comfort is our primary concern with our ultimate goal being prevention and control of dental disease. Our purpose is to provide complete quality dental care in a gentle caring atmosphere.

Your First Visit

We require a completed health questionnaire when you arrive. For your protection we must know the condition of your health. During your initial visit the doctor will perform a complete oral examination. This examination will include the necessary X-rays and other procedure required to make a thorough and accurate diagnosis.

Your Future Appointments

We believe every patient should understand the status of their dental condition and what is required to restore their mouth to optimum health. After our examination we will discuss a practical treatment plan with you. This plan will tell us where we are going, approximately how long it will take to get there, and what the investment will be.

Emergencies

We are available for emergency care. We will take immediate steps to relieve any discomfort you or a member of your family may experience. If an emergency situation should arise, please call us as early in the morning as possible.

Insurance and Payment

Our fees are the same as other qualified dentists in our area, and are enough to cover the expense of a quality dental care practice... For your convenience we accept MasterCard, Visa, Discover and Care Credit. We also offer a cash discount, and are willing to make financial arrangements for extensive treatment. Your dental insurance is a contract between you and your company. We will be happy to help you claim all insurance benefits to which you are entitled. However you are ultimately responsible for your account.

Your Regular Dental Care

Our purpose is to provide the highest quality dental care and education to our patients in a comfortable environment.

*A smile is for a lifetime,
we are dedicated to helping you maintain yours.*

Sincerely,
Azar Mahmoudi, DDS
